THE REST OF THE STORY – FISHING WITH SENTINEL SRT IN FISHING BHA.

- The Gaardian SRT was ran in a fishing string to cut 5" drill pipe in 8 ½" open hole at 5791m.
- The Gaardian SRT was placed directly above the overshot and under 7" OD jarring string.
- After 8 hours of jarring both up/down the overshot would not release due to the drill pipe rotating.
- The Gaardian SRT was released on the 1st attempt allowing full recovery of the fishing/jarring string.

ESTIMATED SAVINGS: \$500k USD

- Estimate includes Rig Time, 3rd Party Mob, Pipe Recovery ops & recovery of Fishing string.
